<b>PATRICK QUARANTA, D.M.D.</b>	)	<b>CONSENT ORDER</b>
<b>License # 22DI 00944800</b>	)	<b>OF REINSTATEMENT</b>
	)	
	)	
to Practice Dentistry	)	
in the State of New Jersey	)	
	)	

This matter was opened to the New Jersey State Board of Dentistry ("Board") upon the application of Patrick Quaranta, D.M.D. ("respondent"), seeking to reinstate his license to practice dentistry. Respondent agreed to cease practice in October 2006 following the Board's receipt of information that respondent had obtained prescription medication for personal use under false pretenses by using fictitious patient names on more than one occasion. Respondent enrolled in the New Jersey Professional Assistance Program (PAP) and entered an in-patient drug rehabilitation program in November 2006. The Board formalized his cessation of practice in an order of voluntary surrender in March 2007. Pursuant to that order, upon an application for

reinstatement, respondent was required to appear before the Board or a committee of the Board to discuss his readiness to reenter the practice of dentistry.

On December 5, 2007, respondent appeared before the Board requesting reinstatement of his license. He was accompanied by Edward Reading, Ph.D., L.C.A.D.C., Assistant Director, Professional Assistance Program. In support of the application for reinstatement, respondent discussed his treatment and continued participation in the Professional Assistance Program. Since November 2006, when he entered the program, respondent has abstained from use of all psychoactive substances, has undergone intensive therapy, and has had regular contact with a clinical representative of the Professional Assistance Program.

Based on the entire record, the Board has determined that respondent may have his license reinstated subject to the conditions outlined in this order. Respondent appears to be in early sustained recovery at this time. The Board notes that the restrictions in this order will permit respondent to practice as a licensee of the Board while providing him with intensive support as he continues in his recovery. The Board finds that the restrictions placed on respondent's practice by this order are adequate to protect the health and welfare of the public, and that good cause exists for entry of this order:

THEREFORE, IT IS ON THIS <sup>11<sup>th</sup></sup> DAY OF DECEMBER, 2007

CONSENTED AND ORDERED:

1. The license of Patrick Quaranta, D.M.D., to practice dentistry in this State shall be reinstated. Dr. Quaranta shall immediately forward payment of the

biennial licensing fee of \$390.00 to the Board of Dentistry, P.O. Box 45005, 124 Halsey Street, Newark, New Jersey 07101.

2. Respondent may practice in a group setting with other licensed New Jersey dentists, in a hospital or university setting, or in any other setting in this State except that respondent shall not practice as a solo practitioner. Respondent may apply for modification of this restriction not sooner than three months after his return to practice.

3. Respondent shall be permitted to prescribe controlled dangerous substances for patients as required in connection with dental treatment or administer medication to patients in the course of dental treatment, in accordance with the following terms and conditions:

- a) Respondent shall use sequentially numbered, triplicate prescription pads for all prescriptions written.
- b) Respondent shall provide the original prescription to the patient, attach one copy of the prescription to the patient record, and submit the third copy to the Board, attention: Executive Director, on a monthly basis no later than the fifth day of each month for all prescriptions written in the previous month. The first submission shall be due no later than February 1, 2008, for all prescriptions written starting on the entry date of this Order.
- c) Respondent shall be required to account for each consecutively numbered prescription, regardless of whether the particular prescription was voided or not used for any purpose whatsoever.

d) In the event respondent is practicing in a hospital or university setting, in lieu of a through c above, respondent, after recording the prescription in the patient's chart, may have the chart cosigned by another licensed New Jersey dentist.

4. Respondent shall continue his participation in the Professional Assistance Program (PAP) and shall comply with the recommendations for treatment, including but not limited to:

(a) monthly face-to-face contact with representatives from that program for the first six months following entry of this order;

(b) attendance at support groups, NA or AA, including a Caduceus meeting, at a minimum of three times per week;

(c) urine monitoring not less than once a week for the first year following entry of this order; and

(d) counseling as recommended by the PAP.

5. If respondent discontinues participation with the PAP or fails to comply with the conditions imposed by the program or outlined in this consent order without obtaining approval of the Board and the PAP, he shall be deemed in violation of this Order. After the period specified in this order, reduction in urine monitoring or the number of required face-to-face meetings with the PAP shall be at the discretion of the Executive Medical Director of the Program with notification to the Executive Director of the State Board of Dentistry.

6. Respondent shall abstain from the use of alcohol and from all psychoactive substances, unless prescribed by a treating physician for a documented medical condition with prior notification to the Executive Medical Director of the PAP of

the diagnosis and prescribed medications. In addition, respondent shall advise any and all treating physicians and/or dentists of her history of substance abuse.

7. The PAP shall submit quarterly reports, including urine results, to the Board regarding respondent's participation and compliance with all requirements of the PAP and this order. If respondent has a positive urine, misses an appointment without consent, or has a lapse or slip in her recovery, or if respondent terminates recommended counseling or his participation with the PAP, the PAP shall immediately inform the Board. For purposes of this paragraph, "immediately" shall mean reporting the information orally within 24 hours and following up with a written report within 48 hours.

8. (a) Any failure by respondent to submit or provide a urine sample within twenty-four (24) hours of a request will be deemed to be equivalent to a confirmed positive urine test. In the event respondent is unable to appear for a scheduled urine test or provide a urine sample due to illness or other impossibility, consent to waive that day's test must be secured from the PAP. Respondent shall notify the PAP if he will be out of the State for any reason, so that the program may make a determination regarding alternate testing.

(b) Any urine test result showing creatinine levels below 20 mg/dL and a specific gravity below 1.003 shall create a rebuttable presumption of a confirmed positive urine test. Any such result shall be followed immediately by a confirming GC/MS test.

(c) Respondent shall familiarize <sup>himself</sup> ~~herself~~ with all foods, food additives or other products (such as poppy seeds) which may affect the validity of urine screens, be

presumed to possess that knowledge, and shall refrain from the use of such substances. Ingestion of such substances shall not be an acceptable reason for a positive urine screen and/or failure to comply with the urine monitoring program.

(d) The PAP may, after notifying the Board, modify the frequency of testing or method of testing during the monitoring period.

9. Respondent shall provide any and all releases to any and all parties who are participating in a monitoring, treatment, or other program as outlined in this order, as may be required in order that all reports, records, and other pertinent information may be provided to the Board in a timely manner. Respondent agrees that any information received by the Board regarding respondent's treatment or participation in a monitoring program may be used in connection with any proceedings pertaining to his license.

10(a) Respondent shall be subject to an order of automatic suspension of his license upon the Board's receipt of any information which the Board, in its sole discretion, deems reliable demonstrating that respondent has failed to comply with any of the conditions set forth in this consent order, including but not limited to report of a confirmed positive urine, or a prima facie showing of use of alcohol or drugs.

(b) Respondent shall have a right to apply for removal of the automatic suspension on ten (10) days notice to the Board and to the Attorney General. The Board may hold a hearing on that application before the full Board or before a committee of the Board. In the event a committee hears the application, its action shall be effective immediately and subject to ratification of the full Board at its next scheduled

meeting. In a hearing seeking removal of the automatic suspension, any confirmed positive urine shall be presumed valid.

11. Nothing in this order shall be deemed to preclude the Board from taking any action it deems appropriate should the Board's review of information cause it to determine that such action is warranted or from imposing restrictions or conditions on respondent's license should the Board determine that such restrictions or conditions are appropriate to protect the public health, safety, and welfare.
